Budd Van Lines is a top innovator in Household Goods Moving:

This is an example of our new **Load it Once** Technology serving an executive in New York City.

Instead of handling the furniture numerous times in and out of storage, the container (with the goods safely sealed inside) was placed on the **Load it Once** truck and delivered directly from our facility to the city.

We also saved our client over \$800.00 by eliminating the need for a shuttle truck.

Less handling, higher security and a faster more efficient delivery: **Load it Once !!**
