

# Smooth Moves

## You move their furniture; we'll move their money

When an employee decides to relocate, moving their money should be the least of their concerns. First Tech can help.

As a credit union that specializes in serving the high tech industry, we understand the unique challenges foreign and domestic relocation can bring. Our Relocation Program can help employees move their money quickly and easily.

Before a foreign national arrives in the U.S. and receives their Social Security number, we can:

- Establish their checking and savings accounts
- Facilitate incoming wire transfers
- Setup direct deposit so they have immediate access to their payroll and relocation allowance
- Start the home loan process – we have a special discount program for relocating employees

Once they receive their Social Security number, they're eligible to:

- Apply for a credit card, auto loan or personal line of credit
- Access no-cost personal financial education about establishing credit, auto-buying and more.

Talk to a Business Development representative today. You can reach us at [BusinessDevelopment@firsttechfed.com](mailto:BusinessDevelopment@firsttechfed.com).

Relocation program terms are subject to change without notice. Some restrictions may apply

CL-0054 161216

Federally insured by NCUA.

## Credit Union membership has its benefits

First Tech members enjoy the same complete suite of financial services they'd expect from a bank without all the pesky big bank thinking. We offer all the traditional banking options as well as mortgage, financial planning and insurance services.

The best part? We're a credit union. That means employees have a team of experts committed to helping them build a strong financial future.
